

Check back at this site in the spring to see next summer's sessions dates and programming!

## BISHOP LEIBOLD SCHOOL SUMMER SCIENCE CAMP

Join us for an exciting week filled with hands-on science activities and exploration, games, songs, and math fun! Each day campers will explore an area of science with themes: *Get into Engineering, God's Great Outdoors, Fun with Flight, Cool Chemistry & Science Fun Finale.*

**WHEN:** July 18-22, 2011 Monday - Friday

**TIME:** 8:30 am -11:30am

**WHO:** Students entering grades 1-3 next school year\*

**LOCATION:** Our Lady of Good Hope Parish Center

**FEE:** \$65 includes daily instruction, camp t-shirt and daily snacks/drinks

**Contact:** Beth Allaire 384-0982 or [sballaire@mics.net](mailto:sballaire@mics.net) for questions.

A student carpool list will be released before camp's start.

**Registration How:** Complete the three forms available on [bishopleiboldschool.com](http://bishopleiboldschool.com) (see links to "Camps" on left-hand side) and send with payment to 24 S.Third St. Miamisburg, OH 45342. **Payments:** Please make checks payable to "Bishop Leibold School" for \$65 per camper; note "Science Camp" on memo line. Cash payments; on envelope please write camper's name and "Science Camp" Forms may be mailed to 24 S. 3rd Street Miamisburg, OH 45342. **Deadline:** St. Henry & OLGH parishioners and Bishop Leibold students have exclusive enrollment until May 1, then enrollment opens to neighboring schools. Registrations handled on a first-come, first-served basis.

**Our Instructors:** **Ann Bale**, BLS Kindergarten teacher, offers campers 34 years teaching experience. She brings a love of nature and an impressive range of experiences of outdoor education, including Yellowstone National Park Institute, and Project Wet and Project Wild certifications through The Ohio Division of Wildlife. **Beth Allaire**, BLS Quest Math and Science Enrichment instructor, offers 20 years of science instruction. She has eight years' background in physical science as an aerospace instructor for NASA's Student Academy and an enthusiasm for engineering instruction through projects such as catapults, bridges, and robots. **Laura Schommer**, BLS Fourth Grade teacher, offers campers 32 years of teaching experience with 18 years in primary grades. She has worked on the Primary Grade Archdiocese Science curriculum and loves the outdoors.
